

PREPARING FOR CLIMATE CHANGE IN RYE

GAINING INSIGHTS AND CHARTING A COURSE

Workshop #2 reviewed planning tools and strategies the town can use to address the impacts of climate change and sea level rise. Join Rye residents, businesses, officials, staff, and land use boards and commissions at Workshop #3 to learn about how marshes protect the town from sea level rise and storm surge.

MONDAY

June 16, 2014

6:00-7:30PM

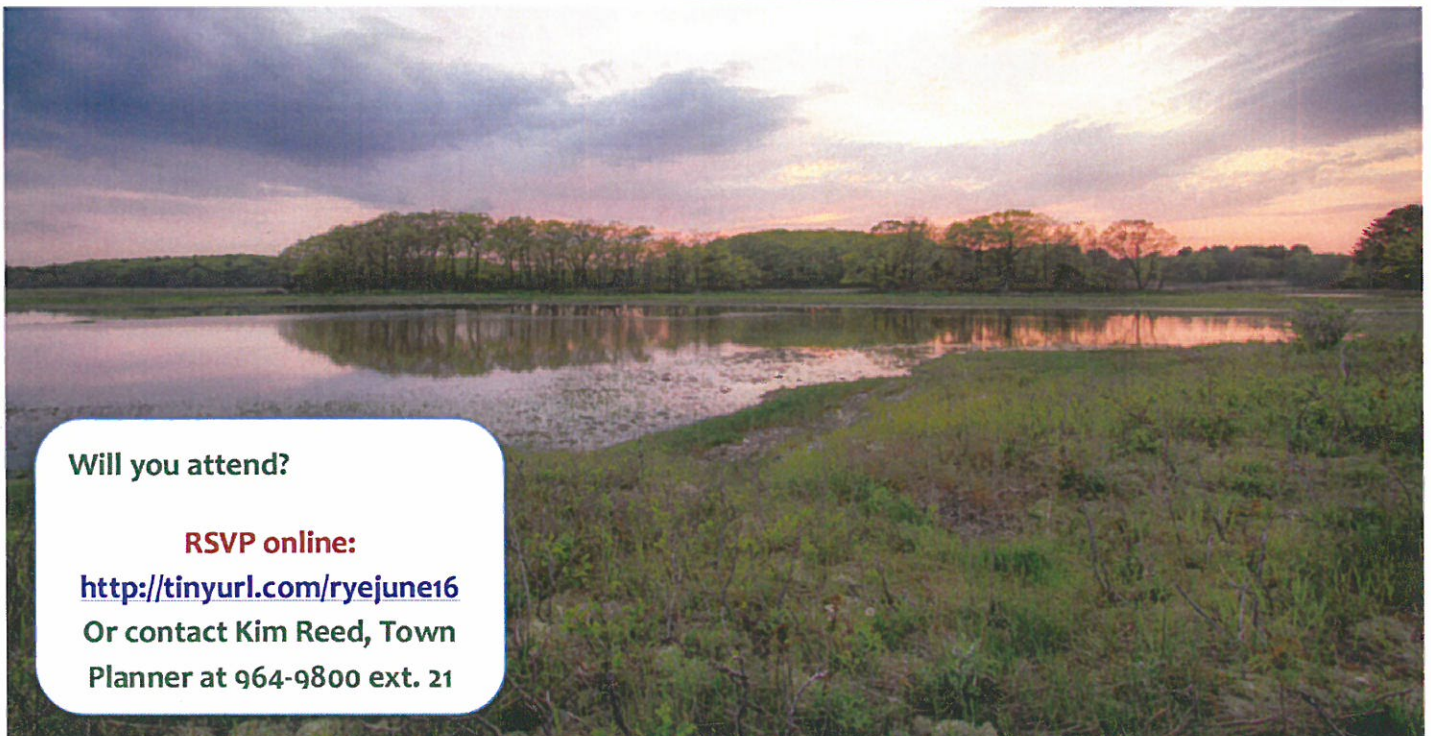

Meeting point to-be-determined. Visit town website for more info:
