RCL Notes  
Rye Conservation Commission Meeting  
April 11, 2019

**Wetlands**

175 Harbor Road, Tax Map 9.2 Lot 22 Bruce Valley

Complete repairs to harbor front seawall damaged in winter storms of March 2018

The project concerns a storm damaged sea wall in Rye Harbor. The Building Inspector has said the wall can't be higher than 13 feet, higher could flood an abutter. The wall will be 10.6 feet high according to the owner, Mr. Valley . The commission would like to see a native plantings buffer of 3-5 feet behind the rebuild sea wall. During the subsequent site walk on 4/15 it was noted mature deep rooted rosa rugosa maintained the soil well.

**Town Forest Management Plan**

The Commission reviewed a draft of the Town Forest Management Plan. There was discussion that much of the draft was on trail marking and maintenance as the Town Forest according to the forester consultant is becoming more park like due to growth in se and population density.

**Town Forest Leash Zones**

The Commission had previously voted to recommend a continuation of the zone leash law. The Selectmen have asked the Commission to present. Members will attend the April 22nd Selectmen's meeting to discuss.

**14 Fairhill Avenue, Tax Map 20.2, Lot 44, Owners:** Brouillette, Robert A. Rev Trust

Present: Mr. & Mrs. Brouillette, Owners; Gary Densen, Builder

The Rye Conservation Commission (RCC) conducted a site walk at 14 Fairhill Avenue to evaluate a construction project to see if it was currently in compliance so that a Certificate of Occupancy could be issued.

The contractor had questions regarding plantings to comply with conditions. The commission will not object to the Certificate of Occupancy as long as all conditions are met and the owners present a planting plan to the commission.
