

Rye Energy Committee

Working Session Notes

Wednesday, November 10, 2019
9:00 – 10:30 AM, Rye Public Library

Attending: Howard Kalet, Tom Pfau, Michael Joyce, Carl Nicolino

The working session was spent discussing the implications of NH Senate Bill 286, enacted on October 1, 2019, which allows municipalities to negotiate the purchase of electricity from competitive suppliers on behalf of town facilities, businesses, and residents. It may be an attractive option as the time commitments are more attractive and flexible.

Two REC members were planning on attending the Clean Energy NH Local Energy Solutions Conference on November 15th to learn more about the Senate Bill.

The next regular REC meeting will be held Tuesday December 10th at 6:30 PM at the Rye Public Library.
