

Benefits of the Concept vs. the Current Configuration

- **Open Space** is considerably larger and includes performance space
- **RPL expansion** is directly available in an area of adequate size
- **Allows Rye Town Museum** full visibility and access from Washington Road, room for expansion, and purposely connects it to a Library/ Common/Museum “campus”
- **Parking** remains conveniently located for both Library and Town Museum with a newly paved lot
- **Adds** a new and more appropriately located septic system for the Museum
