2) Committee reviewed draft suggestions for the Town Center project.

**Benches:** a bench that seems historically accurate was selected

**School traffic:** subcommittee encouraged to get letters from school principals and parents as back up to give the engineering firm. It was noted that other stakeholders want to be involved and that the engineering firm will have a meeting with the Town. So people can express their thoughts then. A concern regarding the carpool lane was noted and it is not part of the current scope. Subcommittee will put concerns in writing and the Committee can send a letter to the Select Board.

**Street Lighting:** Lights from a company in Pennsylvania that have been manufacturing street lights for over one hundred years have been identified. The lantern style light fixture samples that have been shown are historically appropriate. The lights will have to be presented to the HDC.

Rye Town Handbook from the Rye Civic League
The Rye Citizens' Handbook has been created by the RCL to provide a consolidated resource to assist citizens in interacting with the various employees, board and commission members of the Town. It contains a description of each of the positions and groups, together with the contact information for each. It provides a road map to assist citizens in interacting with each function. The document is fluid. The intention of the RCL is to revise the Handbook at least annually in response to changes in staff, board and committee memberships, and the laws.
Special thanks to Mae Bradshaw who created and maintains the handbook.

NOTE: 2022 Update is available at the Library, the Town Clerk's Office and other locations. All sections are also posted on the Rye Civic League website.
