Jan 13. Site Walks

Wetlands agenda items from the Jan.9 meeting were discussed and decided at these site walks

2170 Ocean Blvd ([Google Maps location](#))

Proposal is for the construction of a sea wall, 1 foot higher than current rip rap with replacement of deteriorating board walks with granite. Disturbed areas will be planted with native species The Commission will support the proposal

598 Brackett Road ([Google Maps location](#))

A deck that is 11 feet from the wetland will be replaced with a new deck also 11 feet from the wetland with stairs extending an additional 8' into the wetland buffer.

The Commission will support the proposal.

There was also discussion about the phragmites on the property with a neighbor informing the group that a culvert on the property is clogged with phragmites rhizomes which is helping create a field of phragmites in the marsh

There was a Trails for People and Wildlife Workshop Jan. 3
