

## Rand Forest Conservation Land – Public Communication Feb. 12, 2023

A sign on Wallis can do a much better job of showing where the Conservation Land trail head is. The Very small Conservation Acces is hard to see. This the MOST important thing and should be the largest. So Sea Glass Lane is not a public road? The town does not maintain?

There is no way to know that there are 3 Public Parking spaces here. There should be one sign on Sea Glass Lane

If there were signs at one point, they are no longer there and it is not very clear that this is the trail head and you can park here.

This rock and sign have not changed

It appears that someone has turned around this trail marker at the entrance of this area. The next visible one has not been turned around.
