

Want to lower your electric bill?

Join the Rye Energy Committee on Wednesday, August 19 at 7:00 p.m. to learn how to read your bill, compare electricity rates, cut energy use, and take advantage of NHSaves programs and rebates. We'll also cover whether rooftop solar is right for your home.

We'll demonstrate the new Energize Solar Estimator and walk through solar costs, payment options, net metering, and how to compare installer proposals.

Attend in person at Rye Town Hall or join online via Zoom: <https://bit.ly/4bEFIGW>
